Quicker ROI & Visible Results

To help you achieve the fastest possible return on investment on your Salesboom.com CRM Solutions, we have developed our Fast Track program. On the basis of years of experience dealing directly with our clients we will help you get on your way with your Salesboom CRM Software purchase, and achieve a positive ROI within weeks.

Fast Track is great not only for new to CRM customers who want the best possible set up, it is also great for existing Salesboom clients who feel they aren't leveraging all of what Salesboom has to offer.

CRM Fast Track Comes in two forms: Set-up & Streamline

CRM Fast Track Set-up: This option is tailored for the new CRM user. Experts at Salesboom will help with the initial setup of your software ensuring the single most important business process will run smoothly. Fast Track Set-up will help you to prioritize what is most important to your business so you can get underway quickly and have all users productive and using the system effectively.

CRM Fast Track Streamline: Tailored for existing Salesboom CRM users. Our experts will help you realize capabilities not before utilized by implementing your single most important business process. With these new business discoveries your company will receive even more benefits from your Salesboom CRM purchase.

Main Benefits

- Benefit from high user adoption in your organization
- Receive great improvements in very little time
- Keeps all progress documented to assist with tailoring for future business growth
- Use metrics to measure and manage your business
- Gain the knowledge needed to align your current CRM Software requirements with your future growth and needs
